WEDGE WELDER HWW1000 SERIES

- ✓ Fast and easy set-up
- ✓ Preset of thickness settings
- ✓ Spring loaded welding pressure
- ✓ Solid one-piece flex-free frame
- ✓ Stepless control of welding speeds
- ✓ 110V/230V operation switchable
- ✓ Weld 15/10/15mm with test channel, according to DVS2225-4
- ✓ Memory 10.000 welds
- ✓ LCD readout of welding speed, temperatures, distance and time
- ✓ Heating element indicator for diagnostic
- ✓ Digital volt meter, ampere meter and time control for maintenance statistics

WEDGE WELDER HWW1000 SERIES

Product characteristics:

Weight:	22kg
Travel speed:	0 - 6m/min
Power consumption:	1900W
Suitable for welding:	PE-HD / PE-LD / Hypalon / XR-5 / PVC / PP and other
Material thickness:	1 - 3,5mm [4mm]
Dimensions:	266mm x 403mm x 318mm
Voltage:	110V / 230V 50/60 Hz
Temperature wedge:	500°C
Languages:	DE, EN, FR, RU, POR, SPAN
Standards:	DVS, CE, WEEE-Reg.-Nr. DE74849106, ISO9001:2008, RoHS-conform

We deliver additional: Carrier box
Tool and maintenance kit

Punch

Tensile tester

Test needle

Film puller
