

Rubber Hardness Tester TH210 (Shore D)

- Digital durometer for non-metal hardness testing
- Conform to DIN 53505, ASTM D 2240, ISO 7619, JKS K 6253
- RS-232C data output
- Batteries last 300 continuous working hours
- Measuring range: 0-100HD
- Display resolution: 0.2 unit
- Max value, peak value, average value
- Under-voltage alarming
- Operating temperature 0 - 40°C
- Power supply: 3 × 1.5V (SR44) batteries or 4.5V AC/DC adapter
- Dimensions: 173 × 56 × 42mm
- Weight: 233g
- Automatic shut off

Standard accessories:

Main unit
Batteries
Case
Manual
Calibration certificate

Optional accessories:

Operating stand with constant load TH210FJ
