

# VERTI-CUTT™ Manual

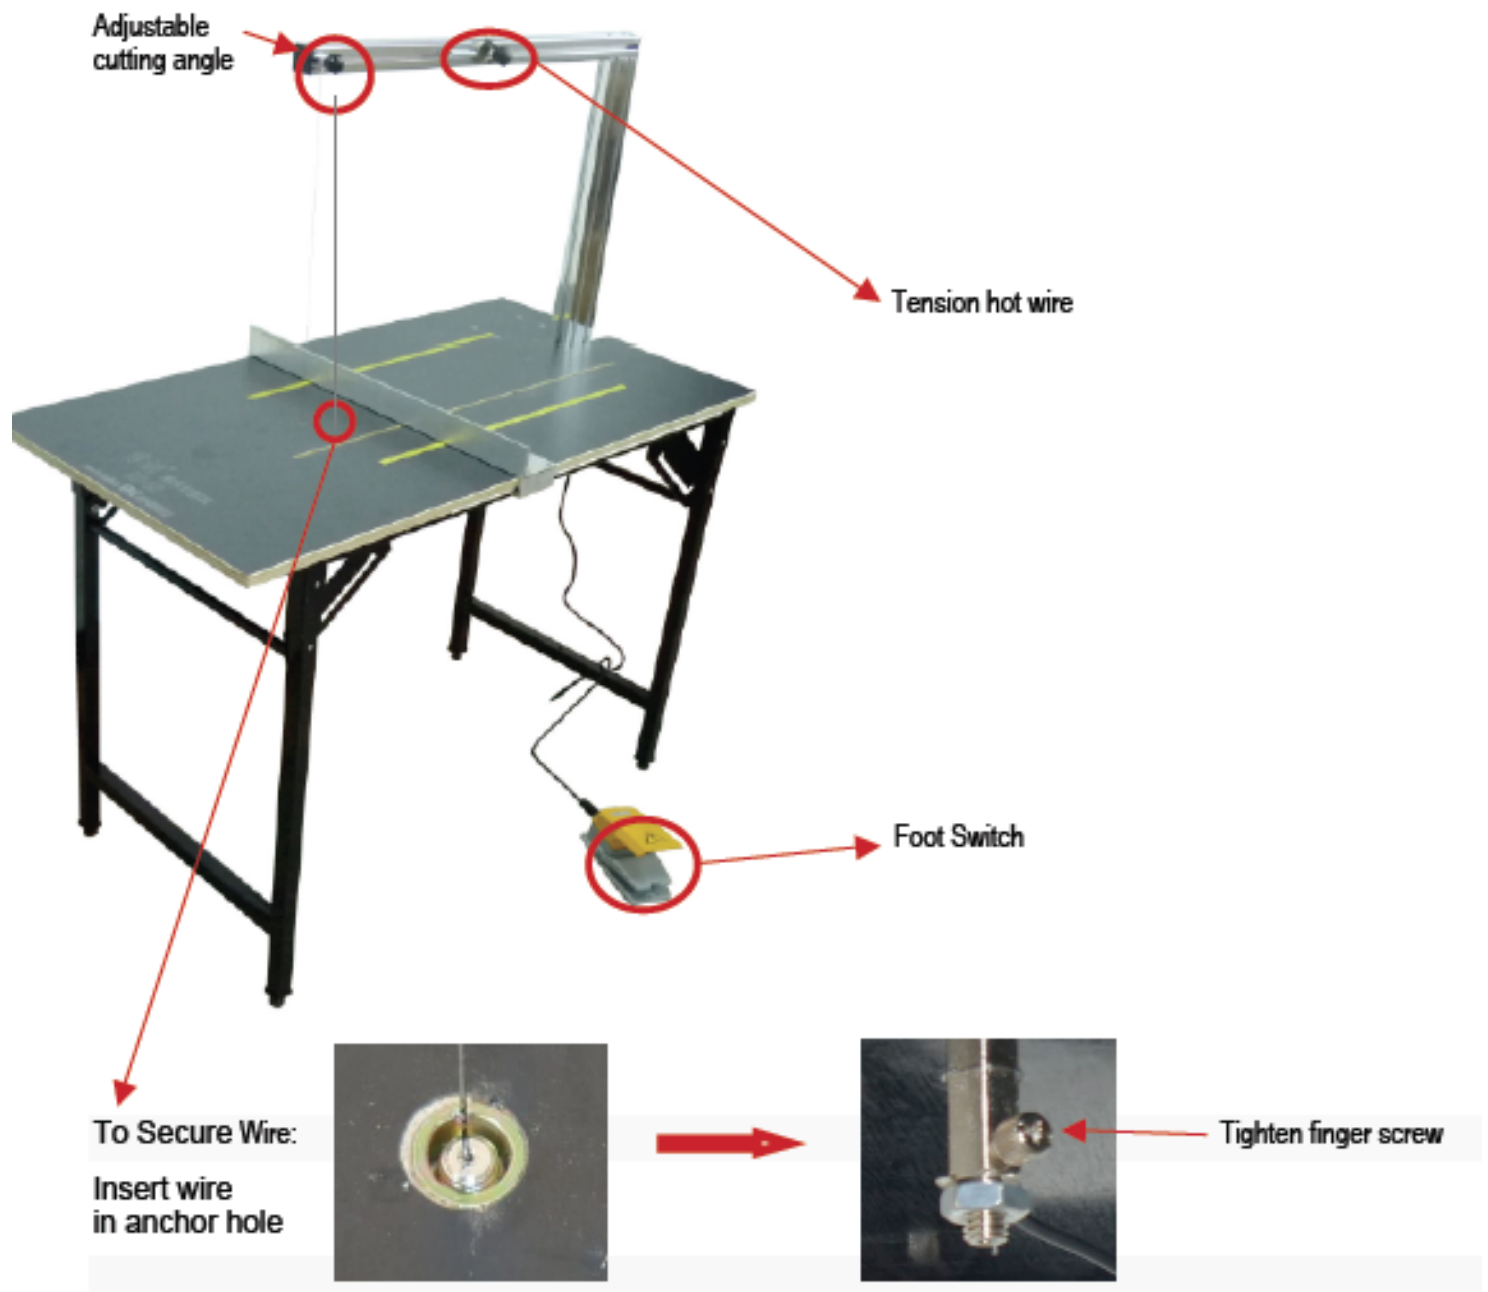

## Application:

VERTI-CUTT™ Table model for vertical and angle cutting of EPS foam material.

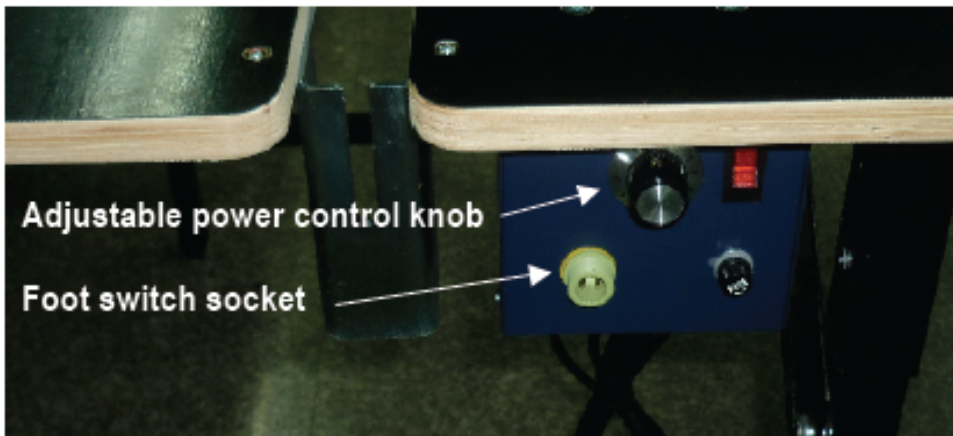

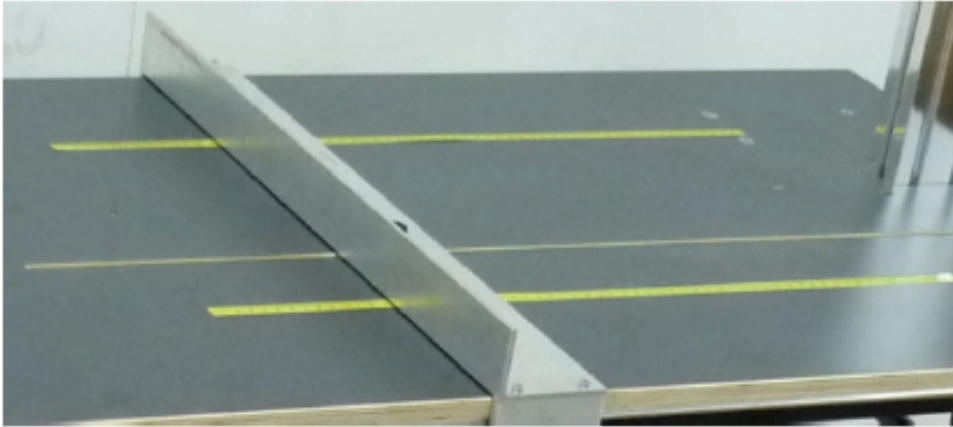

## Operate:

The cutting temperature is adjustable by means of an adjusting knob. A transformer heats the hot wire in 10-15 secs. to approx. 600°C (1110°F). The power transformer is located under the operating plate.

- Adjustable temperature
- Folding table frame
- The wire holding arm is removable
- Equipped with foot switch
- Tabletop is moisture resistant

## Adjustable Fence

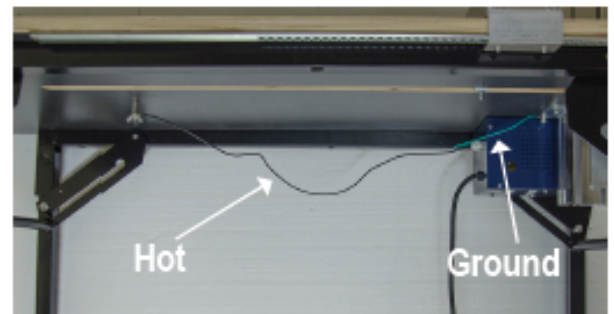

## Caution

- A. Always operate in well ventilated space
- B. Do not touch the wire when working.
- C. Do not tension the wire too tight.

## Specification:

Model	KD-60
Voltage	110VAC
Weight	55 lbs.
Power	MAX.160W
Cutting temperature	1022°F Max Adjustable
Cutting Element	Hot wire 23 gauge
Cutting height	Max. 21.625 in.
Power cord length	8 feet
Size of table-board	47.125 in. X 23.625 in.
Working lever	32.625 in.
